PROFESSIONAL PROFILE

A highly disciplined, detail-oriented, and adaptive professional with a strong foundation in sales operations, leadership, and customer relations, combined with a proven technical aptitude for software development, Python fundamentals, and quantitative cryptocurrency trading systems. Demonstrated success in managing retail store environments, optimizing product visual merchandising, and driving high sales conversion rates. Adept at both independent technical problem-solving and collaborative team leadership, committed to operational efficiency and continuous professional growth.

TECHNICAL & CRYPTO PROJECTS

Zaytrix Quantitative Trading System

July 2025 – Present

Developer & Quantitative Analyst (Personal Project)

- Designed, built, and optimized a custom mid-frequency quantitative trading system ("Zaytrix") focusing automated strategies on cryptocurrency assets (such as SUI, BNB) and Gold (XAUUSD).
- Developed robust algorithmic execution scripts using Python and Pine Script, integrating a hybrid exit engine featuring fixed Take Profit (TP), trailing stops, and breakeven logic to maximize risk mitigation.
- Conducted thorough backtesting and historical data analysis using advanced market frameworks including Smart Money Concepts (SMC) logic, Dow Theory structural levels, and Fibonacci retracement area entries (0.5 - 0.618).
- Researched on-chain metrics, tokenomics, liquidity patterns, and market trends within the decentralized finance (DeFi) and memecoin ecosystems to capture market inefficiencies.
- Leveraged local open-source AI models and tools (Ollama, LiteLLM, Qwen architectures) to accelerate codebase development and perform fundamental sentiment analysis.

WORK EXPERIENCE

Store Associate / Sales Clerk

April 2026 – Present

Toko Sinta (SH GROSIR)

- Delivered high-quality customer service by assisting patrons with sizing, retrieving inventory efficiently from the warehouse, and recommending alternative product options during stock outages.
- Executed professional Visual Merchandising by organizing shoes, sandals, and bags neatly based on size, color matrices, and brands.
- Maintained display floors and fitting room areas to premium cleanliness and appearance standards.

Key Achievements:

- Maintained display stock quality at a pristine level with zero stains/defects, successfully avoiding product markdowns.
- Achieved optimal turnaround times and high efficiency in stock logistics from the warehouse to the sales floor.

Store Manager (Kepala Toko)

January 2025 – March 2026

Toko Sinta (SH GROSIR)

- Managed daily retail store operations completely, guaranteeing punctual opening and closing times strictly adhering to company SOPs.
- Supervised visual product placements, overall cleanliness of the sales floor, and optimal customer facilities.
- Monitored inventory rotation, directed automated replenishment cycles, and led periodic physical stock counts (stock opname).
- Controlled shrinkage risk exposures and audited all active operational equipment to ensure full functionality.
- Conducted targeted product knowledge and service training modules for store personnel, cashiers, and sales clerks.
- Evaluated staff performance scores regularly, maintaining team motivation and resolving operational discipline matters.
- Handled advanced or escalated customer inquiries and grievances professionally to preserve long-term loyalty.

Jewelry Sales Associate

January 2024 – December 2024

PT. Hantar Prada Harmoni

- Welcomed and engaged high-end clients, offering standard-setting consultation for premium gold and diamond jewelry items.
- Educated consumers transparently regarding gold carats, grammage calculations, and item specifications to build brand trust.
- Maintained ironclad security workflows and strict handling protocols for high-value store inventory.
- Consistently exceeded monthly individual and team sales milestones through client-centric relationship management.

Sales Promotion Boy (Ramadan Event)

March 2023 – April 2023

CV Maxindo

- Engaged event visitors proactively and delivered strategic product education to accelerate consumer adoption.
- Monitored regional competitor actions and real-time buying trends to adjust conversational sales scripts dynamically.

Key Achievements:

- Successfully met and surpassed all designated Sales Targets and Conversion Rates set by corporate leads.
- Maintained 100% accurate stock bookkeeping, achieving zero stock variance across the entire event lifespan.

EDUCATION

MANBAUL ULUM Vocational High School (SMK Manbaul Ulum Muncar)

2017 – 2020

Vocational Diploma in Light Vehicle Engineering (Automotive)

- Final Graduation Grade: 82.21 / 100.00
